

# Searches

## 1. Quick search menu

Type to search

Enter the term you would like to search for in the menu and a list of results will be displayed automatically beneath the entry box. To access the page, click directly on the result.

## 2. Host quick search

Type to search

Type in the host you are looking for and press Enter. A host search will be initiated.

## 3. Advanced search

By clicking on the magnifying glass you can carry out an advanced search. This contains five tabs in the header section.

default

by tags

by address

by macro
