

# Service groups

Under "Basic Monitoring / Service Groups" you can access an overview of all service groups. Here you will find three buttons in the header.

Provides the option to hide individual table columns.

Link to the input form for creating a new host group.

Offers the ability to filter the service groups list by name and/or description.

## New service group:

There is a button in the header of the input form used for creating a new service group.

Returns to the service group overview (without saving).
