

Host groups

Under "Basic Monitoring / Host Groups" you can access an overview of all host groups. Here you will find four buttons in the header.

Link to a detailed and extended host group overview.

Provides the option to hide individual table columns.

Link to the input form for creating a new host group.

Offers the ability to filter host groups list by name and/or description.

New host group:

There is a button located in the header of the input form used for creating a new host group.

Returns to the host group overview (without saving).

Field name	Required Field	Description
Container		The container in which the host group is located
Host Group Name		The name of the host group
Description		A description of the host group
Host Group URL		The URL of the host group
